I Gertrude Gettinger am a 83 year old woman forced to stay against my will at a nursing home in Pasadena California by my daughter Sylvia Schmidt. All my rights and freedom were taken from me as well as my monies and home of 40 plus years with the help of Los Angeles County and US postal service. In 2005 began a plan to make people think I'm crazy and force me into a conservatorship. It is hard for people to believe my daughter would do this to me. My mail was forwarded without my permission so I could not pay my bills and to reveal my finances to Sylvia and Gary Schmidt. A hidden, spare key only known to Sylvia was used to enter my home to steal my documents, identification, bank deposit books, home and car keys, cash, jewelry and family belongings. I was working and driving my car when this began. While at work Sylvia and Gary entered my home to alter things to make it appear as if I had memory problems or was unable to care for myself. Without my car or money I could

not work, buy food or pay utilities. She stole my address book keeping me from calling for help and used it to contact all who knew me telling them I had gone insane or suffered from mental problems. She called me 24 hours a day to keep me from sleeping and hired someone to drive by at night shining lights into my windows. I changed my phone number 4 times to stop this but since she getting my mail it started again. With my keys she removed my locks so I could not feel safe in my own home. My doors were locked open to make my home look unsafe. This was all planned by Sylvia and Gary Schmidt who hate me and only want my home and money. Gary hates me since I did not approve of the affair with Sylvia who was married to Ralph Velasco while Gary's wife was pregnant with his daughter Hallie in 1989. Jinsu Lee plumber came to repair the mysterious water leaks where we found Gary Schmidt's tools. Sylvia threatens me with medical shots and putting me in an inferior home

when I complain or do not go along with her lies. Gary used force to keep me in my room while they convinced me I had no choice but sell my home. The court appointed lawyer Violet Boskovich does not believe me and works with Sylvia and Gary instead of serving me. Boskovich also led me to believe I had no choice. When I complained to the US Mail, Los Angeles Police, Adult Protective Services, County Probate court Sylvia would tell them I was mentally ill and they should ignore me. I was starved, my dog was drugged, my home was bugged for sound via smoke detectors and electrical outlets, my stove was dismantled by Gary to cause a gas leak, he removed my locks so I would not feel safe. This was all done by Sylvia and Gary Schmidt to make me look insane so Adult Protective Services would act. Sylvia entered my house, made a mess, then called Adult Protective Services so they find me starved, in a desperate state and living in a mess made by Sylvia. It worked, they removed me, only one doctor had to see me angry, depressed and lacking in food and water to

agree with Sylvia my own flesh and blood. Within days I lost all my rights and my home was taken from me. Sylvia bills me \$40 an hour for things she does not even do, over 40 thousand dollars a year which the county allows her to take from my savings. She's stealing every penny I have worked so hard to earn and save. Sylvia has caused my stress and mental issues, even a stroke where I almost died from the torture caused by her. I DO NOT want Sylvia Schmidt as my conservator, I want a new lawyer that will listen to me and protect my interests. I DO NOT suffer from mental illness, depression, dementia, paranoia or Alzheimer's as Sylvia wants people to think. I am in fear of Sylvia and Gary Schmidt. This is a scam Gary Schmidt to control my estate without my permission and commit fraud. Sylvia Schmidt has stolen my mail and all my current documents, jewelry, utility bills, phone book, cash, bank info, credit cards, bank deposit books, stamp and coin collections, drivers license, green card, property deed.

She claims I misplaced them, this is a lie. She used the hidden spare key to enter my home while I was at work to steal from me and make me look insane. I want Sylvia and Gary Schmidt prosecuted for any and all of these crimes. Sylvia lied on court documents keeping my son Robert A. Gettinger from finding out what was going on. Sylvia does not visit or check on me for 30 days or more. She does not give me my mail or any current court documents addressed to me. To stop me from finding out what she is doing. She does not give me my newspaper which I pay for to have delivered to me. I have been forced to ask my son to bring me personal items such as shampoo and tooth paste.
