Attn: Attorney Linda Whalen,

Dear Linda,

I am sending this correspondence to inform you that as of this date I have still not retained a new attorney. I am finding it difficult or impossible to hire an attorney without access to my own money your holding. All the attorneys I spoke to want a retainer.

Please release annuity money immediately so I have money to pay a retainer to get a new attorney. I am representing myself at this point.

I have to pay my property taxes that are due. I cannot do so until my annuity money is released to me

Heide told me the court order regarding the annuity was not issued because a judge made that decision. (There was not a DRO) I don't even know if it was placed in an Interest bearing account). Heide DeBernardo told me it was an agreement between you and her. Heidi told me it was a mistake to agree to let you to take my annuities. I know it is wrong for various legal reasons. One is that reason it is wrong is since I was in pay status of those annuities since 2008 4 years prior to any divorce proceedings and also because they are unqualified funds. With holding my annuity was extremely impractical and has caused me irreversible financial hardship. I am prepared to provide details of the financial hardship and the emotional and physical harm this has caused me. I have incurred and endured from this senseless act. This has prevented me from getting proper medical and dental attention I need. I do not have enough money to pay for these needs. I was never reimbursed for any of them because Heidi did not provide my information to you even though I had the information in her office prior to the due date March 31, 2013 and 2014. Due to not having access to my own money my health needs are not met.

The pets we shared together have always been a very large expense. I have paid for all the needs myself for 2 years. I must have my own money to even continue paying for their needs.

I have had a spotless credit report since the age of 16, many years before I married Larry Bujdos until you took my annuity away from me without my approval or knowledge. My credit has been permanently damaged since you took my annuity. Since the time of our separation I have paid and can show over 38,000.00 to the credit card debt. I have not used the credit cards. I made double or triple payments on the accounts from the money I had from the property we sold in 2012. Since the annuity was taken I could no longer make the monthly payments. All the money and efforts I made to pay them off prior to you taking my annuity has resulted in a wasted attempt to fully pay them off and resulted in me having no credit at all. Also please understand that I have copies of year's worth of receipts that will credit card debt that can and will be proven to be marital debt. The credit cards were used for the marital home and day-to-day marital expenses.

Larry was always in charge of the finances in our marriage. Larry did not need to accumulate credit card debt as he chose to pay cash from our Debit account for many things he purchased.

The mortgage on our home was and is an unnecessary bill considering that the mortgage was taken out in October 2004 one month after Larry sold Fib Chem and had over 4 million dollars. The

home has been mortgaged when we clearly could have paid it off in 2004. There was no valid reason to want to keep the house in debt.

I consider your holding my annuities, for all this time to be a cruel meritless strategy to force me into a financial hardship.

Now that Heidi is gone she is no longer a signer on the bank account you have my money in. So please do the right thing and release my money. Heide admitted to me, my forensic accountant and a hearing officer it was a mistake on her part to agree to hold my annuity money but she said you're told her it would be only for a few months. It is over 20 months

The longer the money is held from me will prevent me from getting an attorney and I will have to represent myself.

I urge you to please release my money that I had been getting since 2008 immediately and prevent any further financial and legal damages.

Very truly yours,

Deborah Bujdos
